FUN

HARD WORK

SLOW WORK

NO WORK

...BUT...

MOST OF ALL

A VOCATIONAL

TECHNICAL HIGH

SCHOOL IS...

FACULTY

THE CLASS OF 1966 DEDICATES
THIS YEAR BOOK TO
MR. JOSEPH FORDE

The memories that are engraved in the hearts of men are not eternal. Yet for some decades to come men, who as youths were influenced by the late Joseph Forde, will long remember Mr. Forde's measured judgments, as well as his very gentle humor in the classroom. His influence went beyond the walls of the classroom to the playing fields where he so ably performed his duties as a coach and an advocate of good sportsmanship.

We the class of 1966 salute his nobility of character and dedicate our yearbook to the legacy he has passed on to us..

ADMINISTRATION

Message from the Principal

To you, the Graduate of 1966

For some of you, the formal education beyond High School is not possible now, and you are obliged to select a vocation. Be assured that this in no way need limit your success---especially if you are forceful purposeful and avidly dedicated to self-improvement. Perhaps the most important thing you have to face now is to find the right job. Do not compromise by selecting one for the relatively easy, quick money it will afford you, and sacrifice the opportunities for which you might be better qualified. Patience is as much a prerequisite to success as enthusiasm, ambition, intelligence, and a desire to explore. All these I wish to you, together with many years of happiness and success.

Sincerely,

Joseph J. Umowski

The Technician

In 1913, the Legislature of the State of New Jersey passed an act permitting the establishment of vocational schools on what is known as the "County Unit" basis. Prior to the passage of this act, the boys and girls living in the smaller municipalities of Essex and other counties of the State had no opportunity to obtain vocational education. This act aimed to provide in a larger measure equal educational opportunity for all, to avoid unnecessary duplication and expense and to obtain a greater degree of efficiency in the administration of vocational education through centralization and the operation of larger units.

In 1915 Essex County took advantage of the provisions of the school act of 1913 and established the "Board of Education of the Vocational Schools in the County of Essex". The Board was created for the express purpose of organizing, operating and administering a system of vocational schools that would provide equal opportunity for the boys and girls of all the municipalities of the county.

The first vocational school in Essex County was established by the Board of Education of the City of Newark in the year 1910: When the county schools were established in 1915 there began talk of duplication of effort. Both the county and Newark expanded their programs during the next 10 years, with the county schools serving chiefly those communities in Essex county outside of Newark.

The Newark Board of Education and the Essex County Board of Vocational Education entered into agreement whereby the County Board agreed to purchase for the sum of \$1,100,000 the Newark Boys Vocational school and equipment, the Newark Building Trades School and equipment, and the Newark Girls Vocational School equipment only. In occurrence with this agreement, the County Board of Vocational Education assumed control of these schools on January 1, 1925.

Until 1938 the County Vocational Schools were conducted as special vocational schools, with no high school status, offering skilled trade courses two years in length.

VOCATIONAL HIGH SCHOOLS FORMED

Plans were made to have the schools approved by the State Board of Education as High Schools. Plans were also formulated to include technical as well as skilled trade courses in order to better meet the needs of an industrial nation which was developing new technical knowledge and skill at an unprecedented rate. Surveys of industry indicated that there was a need for from 3 to 7 technical workers in New Jersey for every engineer yet far few technicians were being trained than engineers.

SCANNING OF COURSES:

An almost constant scanning of courses to make sure that the county schools are not only up to date in their instruction, but that they are not offering instruction, which is no longer useful in industry, nor instruction which can be effectively offered by the local districts acting independently. Every few years

(cont. on page 91)

IT HAS BEEN HEARD

Mr. Alvarez: "Mangione, quit it"
Mr. Biscardi: "Complete the assignment"
Mr. Bryant: "Go, Go, Go"
Mr. Calney: "Like real New Yorker"
Mr. Crowley: "Shut Up!"
Mr. Deering: "Let's have it boys"
Mr. Fiorini: "Baby Brain"
Mr. Hamara: "What the duece do you want"
Mr. Jackson: "Creep meeting, see me at 3:15"
Mr. Kennedy: "It could be"
Mr. Kinder: "This is your last chance"
Mr. Lynch: "Clean Up"
Mr. Loftus: "Donkeys"
Mr. Mason: "What's the problem"
Mr. Martin: "All right Zeke"
Mr. McCoy: "Hello again! Peace!"
Mr. Mortenson: "Stop rocking the boat"
Mr. Nixon: "Pay or Stay"
Mr. Purdy: "Leave it alone, it works"
Mr. Tezlizzi: "All right you guys"
Mr. Thomas: "Get to work"
Mr. Verbeck: "Come on, please fellows"
Mr. Zeppenfeld: "Students who don't listen"
Mr. Minelli: "Move It"

I BELIEVE

in the human race,
in the warm heart,
in man's integrity,
in the goodness of free society;
that the society can become good only
as long as we are willing to work and
fight for it, and to help overcome
whatever imperfections may exist.

Jackie Robinson

SPORTS

SOCCER SCORES SUCCESSFUL SEASON

Bloomfield Tech completed its first year of varsity soccer and it was a successful season. Of the fifteen games played by the varsity team, it compiled a respectable record of nine wins and six defeats.

Coaches Calney and Deering were greatly pleased with the cooperation and enthusiasm that they had received from the players, faculty and student body.

Among the highlights of this season are, finishing second in the Tech League, behind the co-champions, Irvinton Tech and Edison Tech. We more than held our own with Newark schools beating three of the four teams that we played. Our only loss to Newark schools came through inexperience when we lost to Weequahic High School in the last 90 seconds of play after leading for the entire game 2 to 1. Especially sweet was our upset victory 3 to 1 over the heavily favored Barringer High School team, which eliminated them from qualifying for the state tournament.

From a modest beginning last year when a team was recruited from the student body, through the persistent efforts of Coach Calney, and we only played our team against J.V.'s of other schools, we have indeed reached a pinnacle of success that few rookie teams ever enjoy in their first year of varsity competition. The nine wins loom big against our lost column of six.

Give a man alms and you give him temporary relief, but give him work and you save him.

Children are a great comfort in one's old age. They help you get there.

MACHINE IS SUPREME!?

Once again the "Supreme" Machine Shop has proved its superiority over the "Mighty" Auto Shop in the Junior-Senior Intramural basketball league, defeating them by a score of 35 to 24.

Machine shop controlled the tap-off and scored the first points. The heat of the battle was so fierce that substitution was limited. Sharp shooting by both sides highlighted the game. The vast experience of the students of the Supreme Machine Shop showed as they took on a 13 to 3 lead on the Mighty Auto Shop in the first ten minutes of the game. The game was on thin ice for the Big and Mighty who knew they could'nt win without the assistance of the star player who wasn't present for the game.

BASKETBALL TEAM SWINGS INTO ACTION

In the past we have seen many teams come and go. Some with good and some with bad records, but we doubt that anyone, after watching our team this year, can say that our boys did not give it everything they had. It is therefore only right, that we praise each and every member of the team for their excellent job of representing us as sportsmen and gentlemen.

The nucleus of the "65-66" team came from the J.V. of last year's team. We at Tech expected a great deal from our courtsters, "Wonder Boy" Johnson, "Speedy" Nicholson, "Shorty" Macargo, "Leeping" Jones, and "Happy" Maravi.

In singling out individuals, must we say that Ron Johnson did a terrific job with his ball handling and his aggressive manner. Ken NicholSEN's ball handling and sharp eye kept us in many a game. Burt Jones and Ken Maravi were responsible for the backboards and their jobs were handled in a commendable manner. Joe Wadlowski came through from the side court when we needed a helping hand. Ben Macargo, although the smallest on the squad, proved he could hold his own, both in handing the ball and in scoring. This will be a long remembered basketball season to the graduating class of "66".

11 wins 4 loses

some course is radically changed or is discontinued because the need for it has ceased to exist.

Expansion and contraction will go on and will continue to be governed by the principles of need and the premise that the county unit showed those things and only those things it can do better than the local districts acting independently.

BLOOMFIELD TECH.

Our school originated in West Orange, and shortly thereafter was located at Tory's corner. The building caught fire and was destroyed (1927). After the fire, the school moved to Montclair. It was located at the corner of Forest and Chestnut Streets. The building had been previously used by the Montclair School System's Board of Education. In that school, there were approximately 100 students and a total of eight instructors. The school had six shops besides a few academic classrooms. These shops were: 1. Auto Mechanics 2. Carpentry 3. Electric 4. Plumbing 5. Drafting 6. Food Management.

When the school was in Montclair it was possible to complete the course in two years, however, no high school diploma was offered. The school was finally relocated in Bloomfield in September 1931 after the present building was constructed. When we were established in Bloomfield our school started to grow. From the previous 100 students, it grew to 250 students, and from eight instructors to fifteen. After the move to Bloomfield, two shops were dropped because of lack of interest. These were Plumbing and Food Management. However, there were two more shops added. These were Aviation and T.V. as well as Radio.

In 1937 the course was extended from two years to three years. In 1942 the school was established as a four year high school offering a high school diploma. During World War II our school was in operation twenty-four hours a day training war workers. Our school is a part of the Essex County Vocational and Technical School System.

The History and growth of the Essex County Vocational Schools have paralleled the growth in importance of the skilled mechanic and the technician in our modern industrial society. This growth has been so rapid since the beginning of World War II that it virtually constitutes a second industrial revolution. More complex equipment, more complex curricula, more highly trained instructors and better qualified students have all been required to meet the ever-increasing demands of industry and commerce for greater and better skills.

THE JOKER'S CORNER

Two men were seated in a bus. One of them noticed that his friend had his eyes closed. "What's the matter, Bill?" he asked, "Feeling ill?" "No I'm all right," answered Bill, "It's just that I hate to see all these ladies standing."

Tom: "Why did you have to go to an eye surgeon just for drinking coffee?"

Bob: "I left the spoon in the cup."

Sergeant: "How does your uniform fit you, soldier?"

Private: "The shirt fits all right, but the trousers are too loose around the armpits."

WHO

...is the senior homeroom teacher that gets mistaken for a senior?
 ...is the girl Gary G. chauffers around?
 ...is the senior boy that could pass for one of the 4 Seasons, could it be Joe R.?

WHAT

...is the special attraction in Trenton for Herb H. ?
 ...is it that makes Greg F. feel fine?

WHEN

...will Edward M. learn to drive slowly?
 ...will John H. cut his hair?
 ...will the Technician meet their deadline?
 ...will Mr. Alvarez lose his temper?
 ...will history become exciting?
 ...will the freshmen outgrow their antics?
 ...will the Photographer finish the pictures?

WHY

...can't Bob W. wait for the summer?
 ...did Mr. Stanzial remain so calm during the Harrison game?
 ...does George L. get a standing ovation for opening the window in English class?
 ...doesn't Mr. Purdy wear suspenders?
