PRINCIPALS MESSAGE

Congratulations to the Class of 1984.

Your graduation marks the end of four years of vocational-technical training at "Bloomfield Tech". Hopefully, these past four years have provided you with sufficient skill to make you gainfully employed in your specific trade area. During your stay at "Bloomfield Tech", you have experienced many joys as well as some hardships.

It is my sincere hope that all of these experiences will enable you to become a productive, contributing member of our society.

The fun is over, You are now facing the "real world". Best wishes for all the success possible.
