Forever is a very long time. How is it that people can talk so casually about a concept that we cannot even wrap our minds around? Sometimes we have a friend and we sense that our souls are very closely connected. We know the connection is above time and space. We know that wherever we are in our lives, we will always remain friends. Even if we do not see each other for years, we are able to pick up right where we left off. This is what people mean when they say friends forever.
