# Our County at Work and Play

During the past four years, Athena became aware of the County's contributions to her education at Essex High.

As each new day dawned, she scanned her Freshman schedule. Her academic subjects and exploratory "shops" provided an opportunity to choose one of the technical fields that would become her career.

A many gabled structure was no more complexed than her Sophomore year. New terms, equipment, and procedures had to be learned. Athena accepted her responsibilities as a working citizen of Essex High.

The evening hours found Athena, a Junior now, attending to her studies in order to keep her part-time job. This was the year she became a member of the school's governing body.

Her Senior year seemed endless at first. But like an aerial view, each part of her well planned career became more apparent, the more she viewed the picture. Now she was ready to serve the County which had faithfully served her.

As a post-graduate student, Athena could continue or return for training in one of the more advanced fields for adults.

To the Graduates:

My most sincere congratulations to each of you for attaining this honor of high school graduation.

Athena reminds you that all the people of Essex County have helped to give you this education. You are now ready to help your community and County as you take your place in the adult world. If you make the best use of the attitudes, ideals, and skills which we have endeavored to teach; you will be successful.

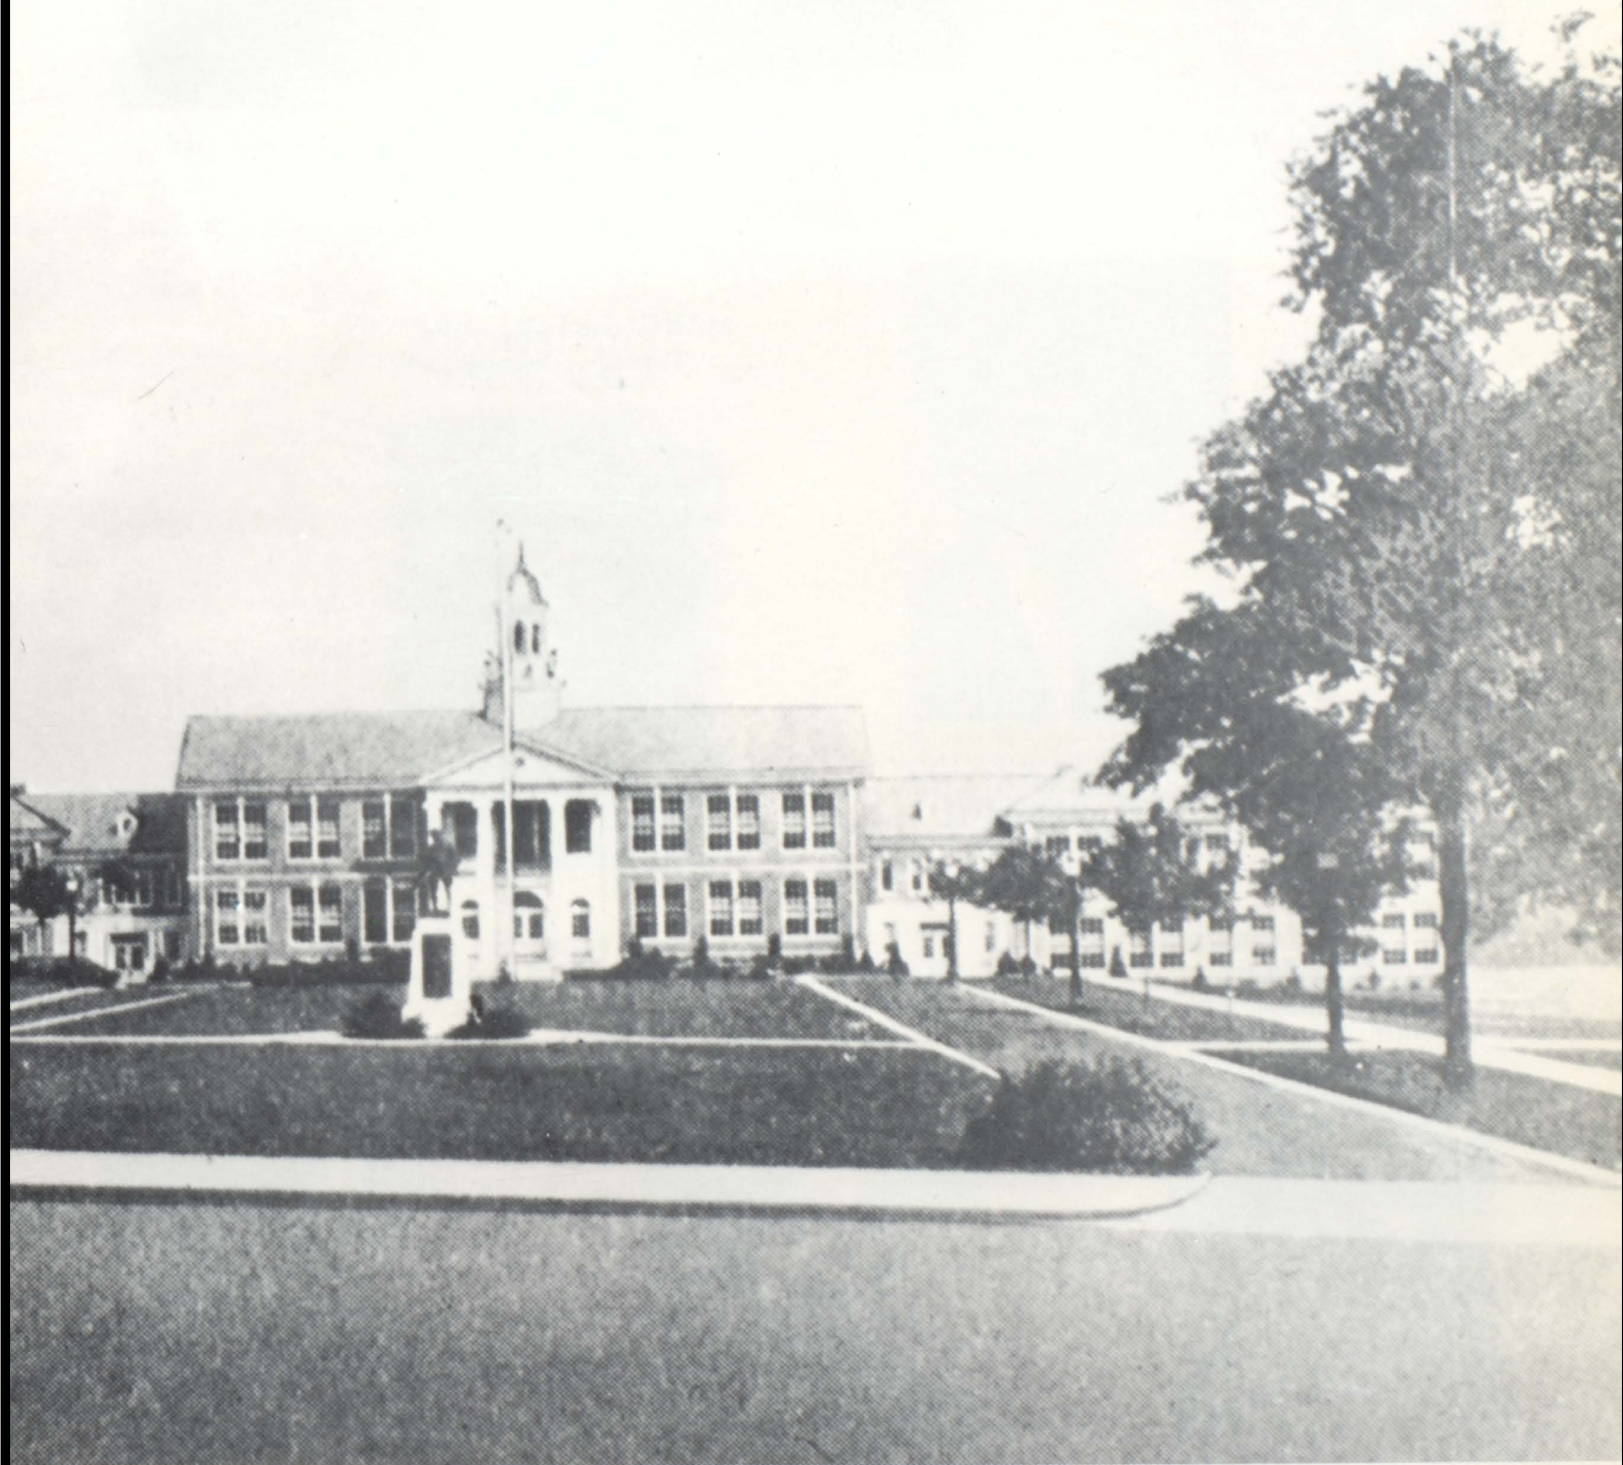

My best wishes to each of you.

Mrs. Rachiel and Mrs. Pennington always have a busy day in the Main Office.

Mrs. Warwick mimeographs forms for the Main Office and schools.

# Guidance

Mrs. Pantano and Miss Underwood check a Senior's folder for employment information.

# Office

Mrs. Risinger's supervision encompasses the duties of all within the school, and also the various evenings activities.

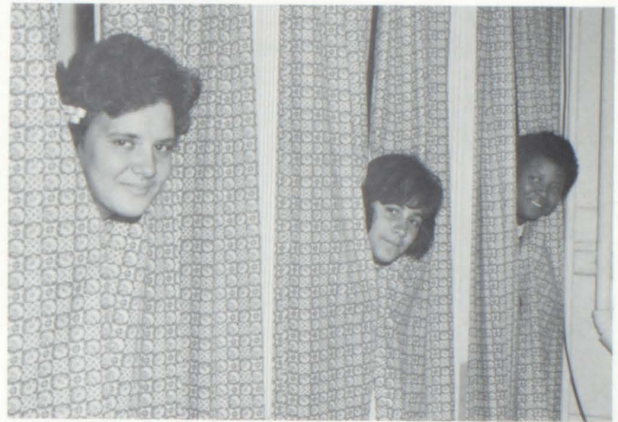

Mr. Keller, custodial supervisor, hands Mrs. Pantano the package of paper she's been waiting for all day.

# Medical

Ann Russomanno, Louise Sagendorf, and Miss Edmison enjoy a laugh while working.

Sandra Zina, Carmella Sansera, and Lena Alston say in unison, "Did someone call?"

Miss Edmison is asked by Louise Sagendorf, "Do you think I have a fever?"

Doctor Vance begins the Freshman check-ups by taking blood pressure first.

Mrs. Gillespie, Mrs. Savoia, Mrs. Valvano, and Mrs. De Stefano agree that lunchtime is the busiest time of day.

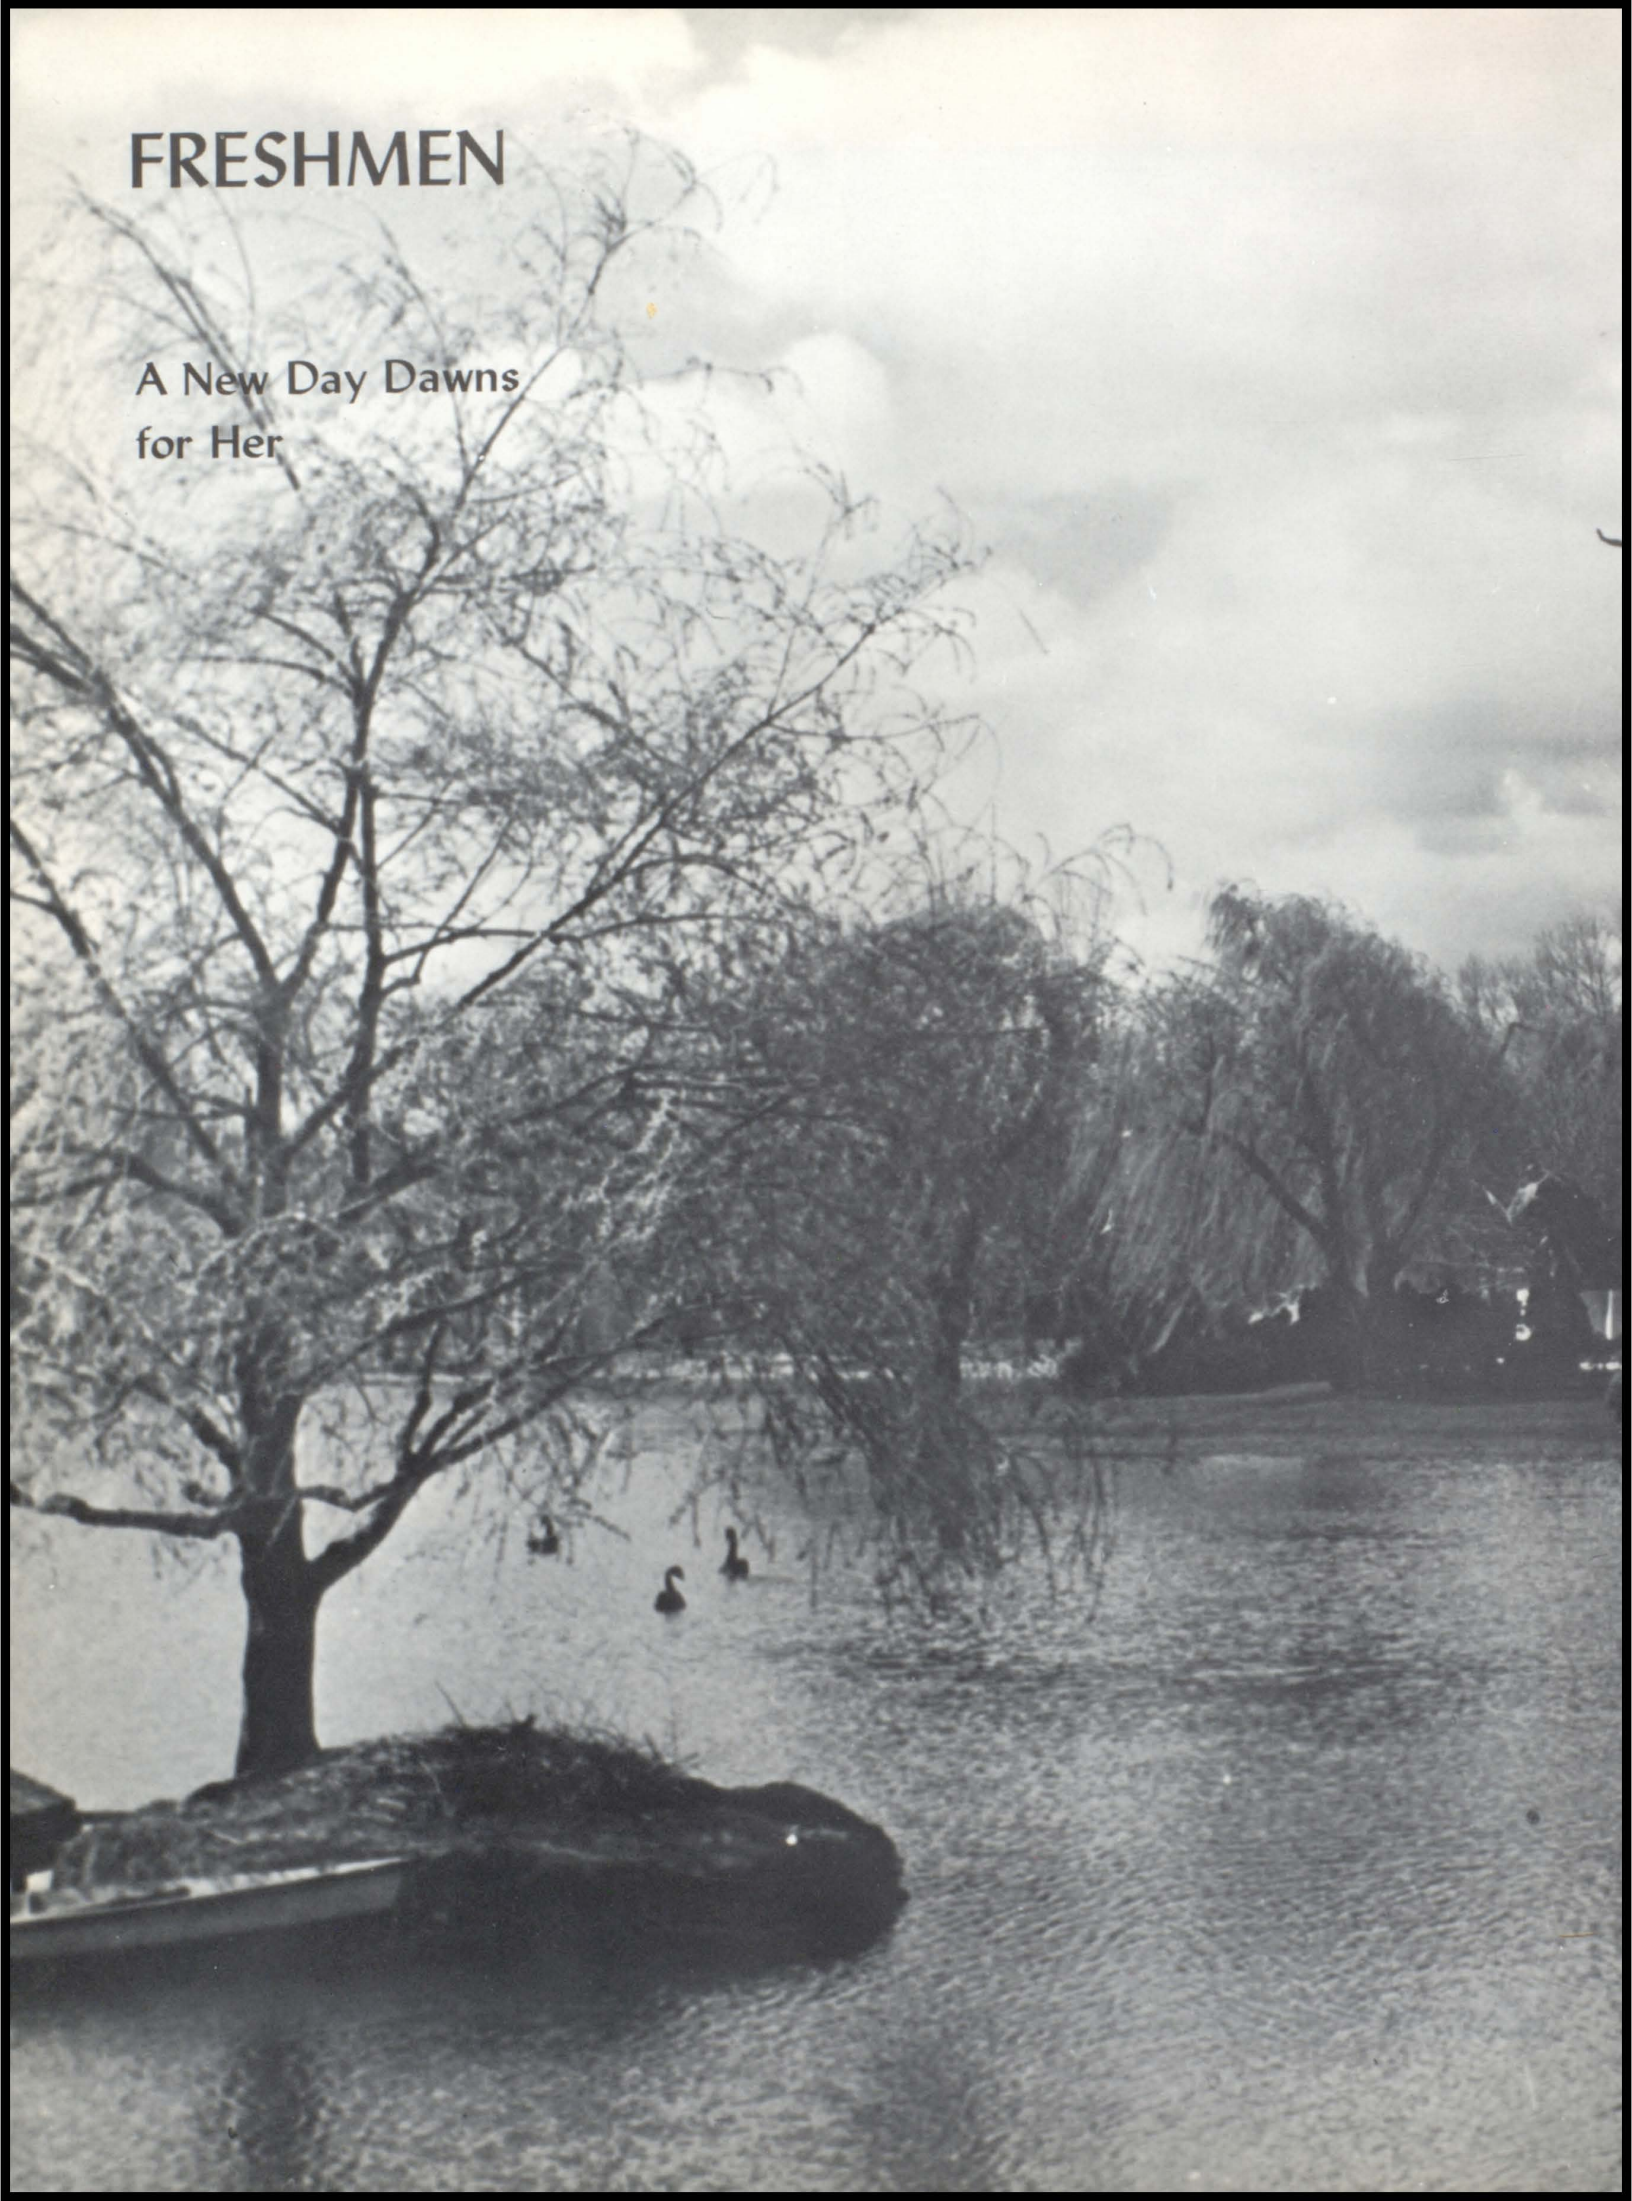

Mr. Bettelli takes a hammer from Mr. Benevenia to adjust the elevator doorjam.

# Safety Council

Our organization, under the supervision of Mrs. Lehman, consists of homeroom representatives who meet once every month with their Student Council officers. In addition to these meetings, we have the various Committees which are under the direct leadership of a Student Council officer.

The success of our Council is due largely to the democratic manner in which it operates. All elections are by secret ballot. All recreational facilities used during the school day is under the supervision of a committee chairman, who is an officer. The publicity displayed, around the school premises aids not only the selling of tickets to dances, but also promotes campaigns for safety and cleanliness among the student body.

## Beauty Culture

In addition to the related subjects, the student in the Beauty Culture field receives training and experience in cutting hair, setting and combing hair, and creating new coiffures for an individual's needs. She learns to apply lotions, creams, and packs and give manicures. Her final achievements are the permanents she gives to her customers, and taking the State examination for her Beauty Culture license.

## Business Machines

Through adequate training and classroom experience, the student becomes a skilled operator of the newest office machines. Her related subjects include bookkeeping, business law, economics and clerical practice. As a Business Machines student she looks forward to her Supervised Office Experience which helps gain the confidence she will need to become successful in her field.

## Commercial Art

The Commercial Art student receives training in the fundamentals of lines and color, air brush, lettering, tracing, and photo retouching. She has the opportunity to develop techniques for specific jobs. In her classroom shop she applied these skills to the decorating of the stage and entrance windows for major holidays and auditorium programs, and specific jobs scheduled for exhibits and displays.

# Skills

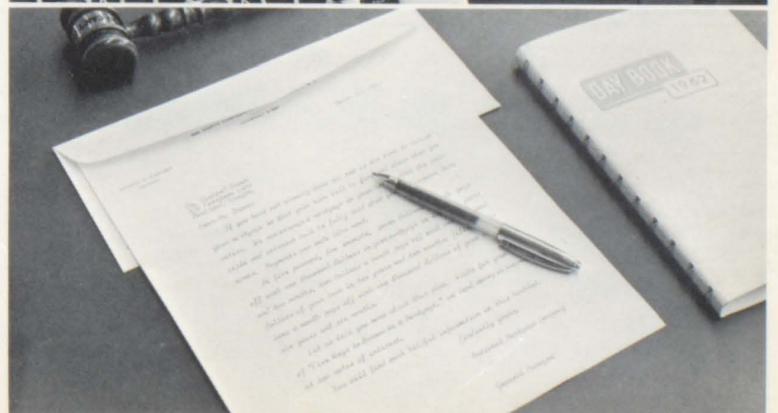

## Dress Design

A student of Dress Design has a wide choice of positions, after she completes her three year course. Her course is designed to prepare her for cutting, fitting and sewing women's and children's garments. She is taught to operate the various types of machines used in her field, and also learns pattern making, textiles, and fashion designing. An atmosphere of custom dressmaking is evident as she completes her customer's garment.

## Food Service

There are never enough Food Service students to fill the many positions available in this field. Her training includes the planning and preparation of foods for tea room, restaurant, fountain service, and luncheonette needs. She also learns to select and plan the use of all the equipment. The school's tea room and cafeteria provide her with daily practical experience.

## Technical Secretary

This is a very technical subject, and requires the student to understand the terminology and problems she and her employer will face daily. The Technical Secretary student receives basic training in office machines and blueprints. She learns about the functions of industry today, and acquires the necessary skills for a proficient secretary. Her S.O.E. provides on-the-job training which equips her with a better understanding of office routine.

Moderato non troppo

*mf* In our hearts there is a picture,

The piano accompaniment for the first system is in G minor, 4/4 time. It features a melody in the right hand and a bass line in the left hand. The melody begins with a half note G4, followed by quarter notes A4, Bb4, and C5. The bass line starts with a half note G3, followed by quarter notes F3, E3, and D3. The piece is marked 'Moderato non troppo' and 'mf'.

Shining bright and true, It's a picture of our high school, Our Dear Gold and Blue.

Voice

For your honor we shall struggle

*p*

The second system includes a voice line and piano accompaniment. The voice line starts with a quarter note G4, followed by quarter notes A4, Bb4, and C5. The piano accompaniment continues with a melody in the right hand and a bass line in the left hand. The piece is marked 'p'.

On the Road of Fame Gratefully, dear Essex High School Singing loud your name.

Though the years that go before us,

*rall.*

The third system includes a voice line and piano accompaniment. The voice line starts with a quarter note G4, followed by quarter notes A4, Bb4, and C5. The piano accompaniment continues with a melody in the right hand and a bass line in the left hand. The piece is marked 'rall.'.

Dim our memory, Recollections of our school days, There will always be.
