

Job Description

Job Title: Technician

Job Type: Full Time

Experience: Electronics and automotive knowledge. There will be on the job training for the right applicant.

Work Location: multiple locations in PA and NJ. This position requires travel.

Job Summary:

This position is for a full-time technician for mobile electronic service and installation. This includes alarms, camera systems, radios, state compliance electronics and other service and installations for fleet vehicles, primarily school buses. Must be able to use and identify electrical circuit and wiring diagrams. You will also have to work well in a team environment and have strong attention to detail.

Job Requirements:

1 year professional experience. The ability to work with little supervision. Must be able to work in heat, cold and inclement weather. You will be moving around so it's important that you can stand, squat, bend and be dexterous. You will also need the ability to move 50 lbs and on occasion more. You must be able to climb ladders and have the ability to operate electric tools. You will need to know how to use a computer, have word processing skills and be able to diagnose electrical concerns. Must have a cell phone, valid drivers license and reliable transportation. There will be a drug test and background check for this position. Most importantly, we are looking for someone with a great attitude and strong work ethic!
